Green Policy

Vision: Our college is committed to fostering environmental sustainability and promoting eco-friendly practices in all its activities. Through this Green Policy, we aim to inculcate a sense of responsibility towards the environment among students, staff, and the community.

Policy Objectives:

1. To reduce the environmental impact of the college's operations.
 2. To promote awareness about sustainable practices and environmental conservation.
 3. To integrate environmental responsibility into the academic, administrative, and extracurricular activities of the college.
-

Key Initiatives:

1. Waste Management:

- Segregation of waste at the source into biodegradable and non-biodegradable categories.
- Promote the use of reusable materials and discourage single-use plastics.
- Conduct awareness drives on waste reduction and recycling practices.

2. Energy Conservation:

- Installation of energy-efficient LED lighting across the campus.
- Encourage turning off electrical devices and lights when not in use.
- Explore and adopt renewable energy sources such as solar panels.

3. Water Management:

- Regular maintenance to prevent water leakage.
- Installation of water-saving fixtures in washrooms and other facilities.
- Rainwater harvesting systems to recharge groundwater levels.

4. Green Campus Development:

- Planting native trees and maintaining a green landscape within the campus.
- Encourage students and staff to adopt and maintain plants.
- Celebrate environmental days such as World Environment Day and Earth Day with plantation drives and other green initiatives.

5. Eco-friendly Transportation:

- Promote the use of bicycles and public transport among students and staff.
- Provide parking facilities for bicycles and encourage carpooling.

6. Environmental Awareness:

- Organize workshops, seminars, and awareness programs in collaboration with the Eco Club and other committees.
- Encourage participation in local, national, and global environmental initiatives.
- Include environmental topics in co-curricular and extracurricular activities.

7. Digital Initiatives:

- Promote paperless administration by using digital platforms for notices, assignments, and other communications.
- Encourage students and staff to use e-books and online resources to minimize paper usage.

Implementation and Monitoring:

- The Eco Club, along with faculty and student representatives, will monitor the implementation of the Green Policy.
- Periodic reviews will be conducted to assess the effectiveness of the policy and identify areas for improvement.
- Feedback from students, staff, and other stakeholders will be encouraged to enhance green initiatives.

Declaration: This Green Policy reflects the college's commitment to environmental sustainability and serves as a guide for our efforts towards creating a cleaner and greener future. All stakeholders are encouraged to actively participate and contribute to this mission.
